SCHMIEDEKUNST AUS LEIDENSCHAFT

Seit 1964 werden in unserem Familienunternehmen in Südlohn Leuchten und Schmiedearbeiten in höchster Qualität hergestellt.

Durch sorgfältige Handwerkskunst entstehen hier Wohnraum- und Gartenleuchten, Straßenlaternen und Sonderanfertigungen verschiedenster Art. Jede Arbeit für sich – ein Unikat, das im Münsterland unter einem Dach entwickelt und gefertigt wird.

Alle verwendeten Gläser sind zudem mundgeblasen. Wir arbeiten ausschließlich mit hochwertigen Materialien und Rohstoffen. Die verschiedenen Standardoberflächen haben wir auf Seite 104 abgebildet.

Die heute so wichtige Anforderung der Nachhaltigkeit erfüllen unsere Produkte, die für Generationen gemacht sind. Zudem verstehen wir die Nachhaltigkeit auch als Ansporn, die Weiterführung der Handwerkstradition sicherzustellen.

Mit der Ausbildung junger Menschen zum Schmied trägt die Firma Robers-Leuchten dazu bei, eine seit dem Altertum bestehende Tradition aufrechtzuerhalten und sie mit Kreativität und modernen Impulsen zu Produkten von zeitlosem Design zu verschmelzen.

CRAFTSMANSHIP WITH PASSION

Since 1964 we have been producing high quality lighting fixtures in our familiy owned company in Südlohn / Germany.

Our lighting fixtures are carefully crafted by experienced blacksmiths. Indoor and garden lighting, street lighting and customized items are created in various types. Each for itself – a unique piece developed and manufactured under one roof here in Germany.

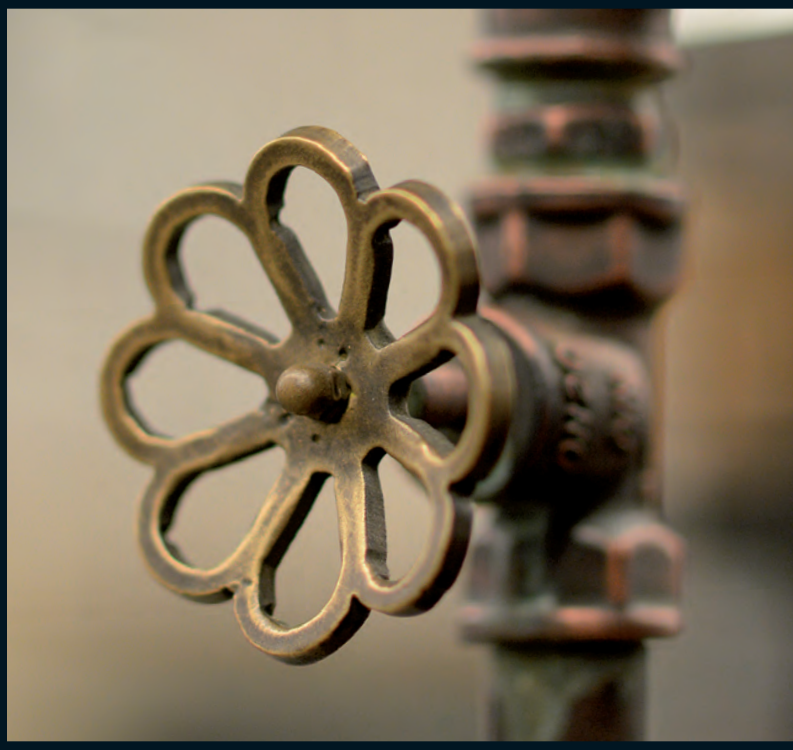

We only work with high-class materials and all glasses we use are hand-blown. In this way each item becomes a unique touch. For different finishes see page 104.

Our products are made for generations and meet the requirements of sustainability which becomes more and more important today. We also feel sustainability as incentive to continue with traditon of handcraft.

By training young people to become blacksmith we help to maintain an ancient tradition, which combined with creativity and modern impulses comes to products of timeless design.

LA FORGE, NOTRE PASSION

Depuis 1964, notre entreprise familiale, implantée á Südlohn en Allemagne, réalise des luminaires ainsi que de la ferronnerie d'art d'une qualité remarquable.

Forts de notre savoir-faire et de notre expérience, nous proposons des solutions d'équipement et d'aménagement décoratifs et fonctionnels dans les domaines de l'éclairage intérieur, extérieur et urbain.

La fabrication des produits au sein de nos ateliers familiaux et de ceux de nos partenaires locaux, offre une très grande flexibilité, permettant de répondre aux demandes les plus spécifiques.

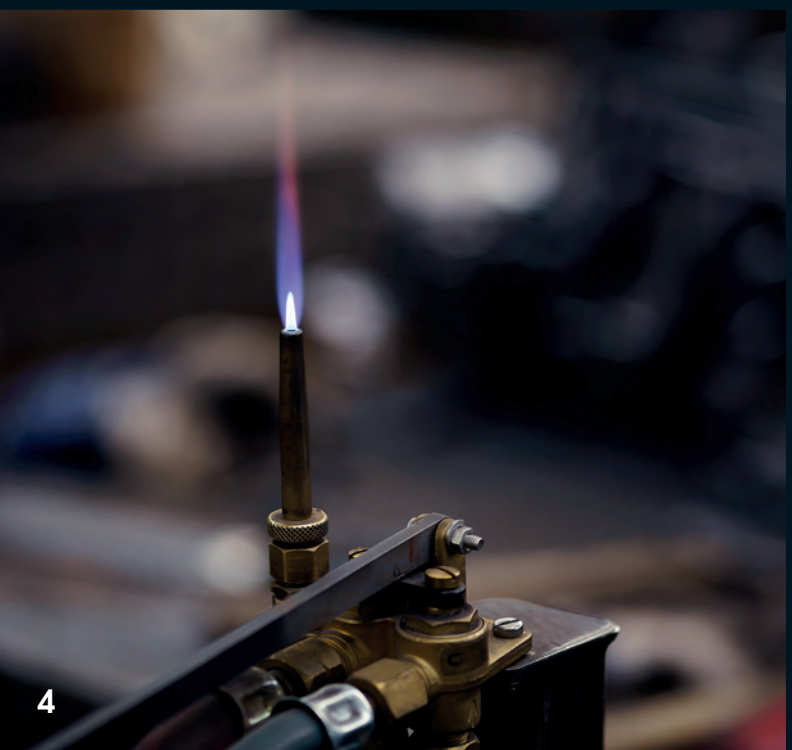

Soigneusement forgée à la main, puis façonnée dans le respect des traditions artisanales, chaque pièce est unique. Les matériaux que nous travaillons sont de très haute qualité et les verres soufflés proviennent de maîtres verriers. Nos réalisations sont ainsi durables, destinées à plusieurs générations.

Enfin, nous mettons un point d'honneur à la formation des jeunes au métier de forgeron, assurant la transmission d'une tradition ancestrale, tout en respectant les tendances modernes et en proposant un design intemporell.

Retrouvez le nuancier des patines de finition page 104.

Начиная с 1964 года на нашем семейном предприятии в городе Зюдлон в Германии мы производим светильники высочайшего качества.

Марка RPBERS – это традиции, основательность и классический дизайн.

Новые идеи светильников рождаются в нашем доме и здесь же воплощаются в жизнь высококлассными мастерами ручной ковки. Это позволяет очень гибко реагировать на пожелания клиентов. Каждая работа мастеров уникальна.

В производстве используются только высококачественные материалы, такие как устойчивый к воздействию морской воды алюминий, чугун, оцинкованная сталь и медь.

Образцы покрытий, используемых при производстве изделий, представлены на странице 104.

Мы идем в ногу с техническими инновациями и уже сегодня оснащаем светильники светодиодными (LED) и другими современными энергосберегающими источниками света.

Светильники поставляются укомплектованными только высококачественными электрическими компонентами и готовыми к установке.

Наши производственные возможности позволяют осуществить самые изысканные пожелания клиента. Мы реализуем ваши представления по разработанному нами эскизу.

CONTEMPORARY

The modern luminaires of the category CONTEMPORARY impress with their simple aesthetics and technical details.

The contrast between plain steel and mouth-blown or specially coated flat glass is an important stylistic element of this series. Moreover it offers various possibilities in individual project designs.

The linear design is particularly emphasized by the hand-applied patination.

INDUSTRIAL

A design like taken from the beginning of the industrial century. Our luminaires of the category INDUSTRIAL reflect the aesthetical charm of industrial culture.

The combination of timeless design, solid steel and authentic details give this series its unique character.

THEME

Theme Lighting is our greatest passion.

The individual solutions for numerous theme parks around the world allow us to redefine the boundaries between creativity and technical solutions.

There were medieval chandeliers, flight objects in Jules Verne style or lamps which took us to another galaxy which left our manufactory.

Each lamp is unique.

CLASSIC

These luminaires are inspired by historical designs and produced in a traditional way by our experienced craftmen.

As an reproduction of historical models or timeless classics our lights are giving old wine cellars, mansions and historical buildings a new brilliance.

Our candle series creates an atmosphere with a timeless charm and offers a big flexibility regarding sizes and shapes to fit your projects.

FINISH

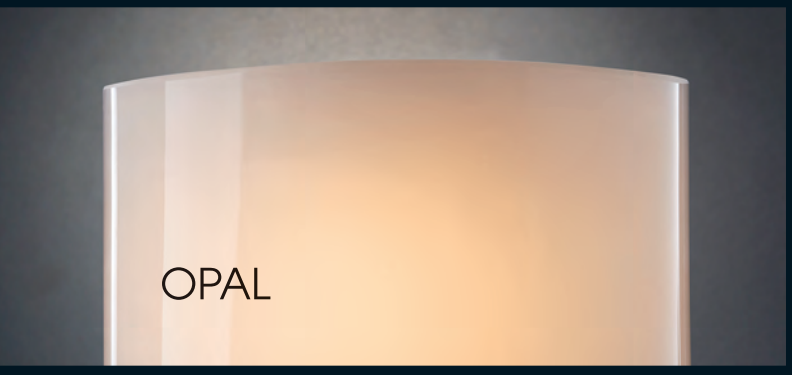

The final finish is made by hand, therefore slight colour differences are possible. Of course also every RAL colour is possible.

Alle Leuchten werden von Hand lackiert, leichte Farbabweichungen sind daher möglich. Selbstverständlich können die Leuchten auch in jeder RAL-Farbe lackiert werden.

Toutes les patines de finition sont peintes à la main, c'est pourquoi de légères nuances de teinte sont possibles. Toutes les couleurs RAL sont également réalisables.
