

Jamaton Line

The classics now with LED
and at attractive project prices

SIGLLICHT
Die Münchner Lichtmanufaktur

Jamaton Line

The classics of Sigllicht

Single luminaires - made with great care in our Munich manufactory.

The Jamaton Line is one of our classic lines and is made up of single luminaires that harmoniously match all our other series thanks to their purist design and their finely adjustable light. We have been manufacturing these exceptional luminaires since 2001 and they are an integral part of the lighting concept in countless residential buildings, apartments or commercial properties of our regular customers. We are very pleased to be able to offer you these high-quality lights all in LED equipment as well. Nevertheless, we are still the halogen variants that are still the better choice lighting situations.

The strength of the Jamaton Line is undoubtedly its versatility for every lighting task, however sophisticated you will find a perfectly fitting luminaire, which convinces both technically and aesthetically. Yet, all individual luminaires are part of a family - that is, the Jamaton Line -, which is manifested by their consistent language of form and recurring elements.

Now all available with LED!

The new price system:

Profit up to 35% on bulk packaging

The new price system: Profit up to 35% on bulk packaging. You get our Jamaton Line lights for three different retail prices.

If you take 1-24 pieces, all luminaires are individually packed, including screws, tools and operating instructions. For packaging units from 24 pieces, you will receive the lights in an industrial packaging with only one assembly tool and one operating manual. This not only protects the environment, it also saves you a lot of money, and a lot of work, because the lights do not have to be unpacked individually. The prices in white are the recommended retail prices in Euro plus VAT.

Retail price for Export plus VAT:

1 -24	> 25	> 50
95,00 €	76,00 €	61,75 €

Guaranteed Quality

To underline our high quality standards, we offer a 5-year warranty for all luminaires, system components and spare parts.

Jamaton Line: Homogeneous versatility.

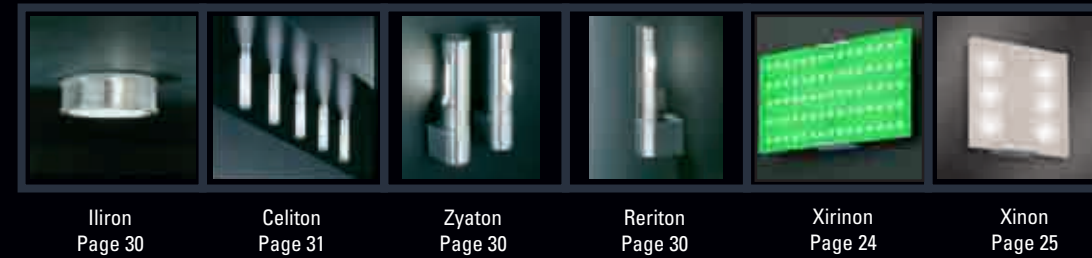

With our Jamaton Line, you can draw on a full design. Whether you want to illuminate indirectly, achieve a larger spatial effect, or want to stage an aspect in particular: The designer lights of the Jamaton Line offer you countless options for effective light.

Ideally, you combine several Jamaton single luminaires with each other, as you show your true strength in the ranking. Alternatively, you deliberately let your favorite Jamaton go into action as a loner. Jamaton: These are characteristically strong types for extravagant light that set accents as loners or harmonize perfectly as a group.

Sensual light for the soul.

The universal can be used as wall or ceiling light.

Ceiling lights discreet and small

Wall lights with the big effect.

Pendant lights clear shapes.

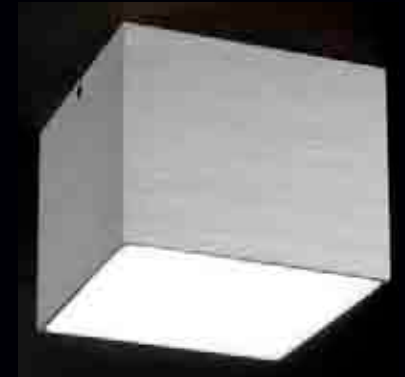

Spotlights for every purpose

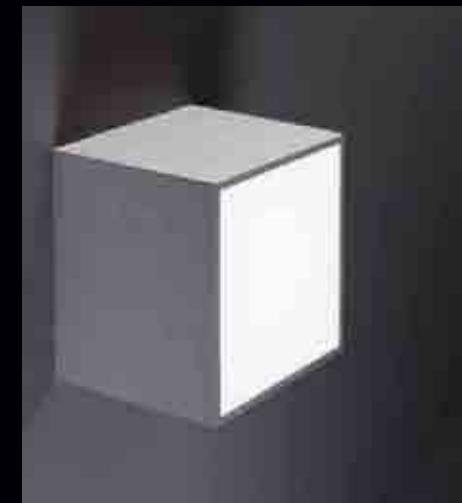

RINON: THE LAMP FOR CEILING & WALL

Led in perfection, single or grouped:
Rinon does not adapt - but always fits.

ITB panel socket

We are happy to make most of the lights for you at the same price with the ITB panel socket.

When using the ITB panel socket you need one Hole of exactly 36mm in the ceiling and a free space behind the ceiling of 40mm. The minimum ceiling thickness is 15mm. The rosette of the ITB socket has an outside diameter of 40mm.

The 12V lights require an external transformer.

MANUFACTORY

SigLicht stands for the highest quality since 1986

Handcrafted production, individual design and innovative technology are top priorities at SigLicht. Our lights are therefore made with the greatest care and from the best materials for 30 years in our Munich factory. Due to our long experience, we can meet the highest quality standards and, thanks to our personal support respond to the special requests of our customers individually. Many other lighting ideas can also be found at www.siglicht.de.

Discover the fascination of light live

In our modern showroom in Munich, you can let the lights work on you. We are happy to show you all functions personally and advise you individually! Just visit us or arrange your individual consultation on [+49 8920119 46](tel:+49892011946) or info@siglicht.de You can also find Siglicht products throughout Germany at our selected retail partners. Simply at www.siglicht.de find your dealer near you!

Opening hours
of our showroom
In the Körnerstraße 2a in Munich:
Monday to Friday: 9am – 5pm
Thursday: 9am – 8pm
Saturday 10am – 4pm
(From October to the end of April)

Klaus Sigl
Owner and managing Director
SigLicht GmbH

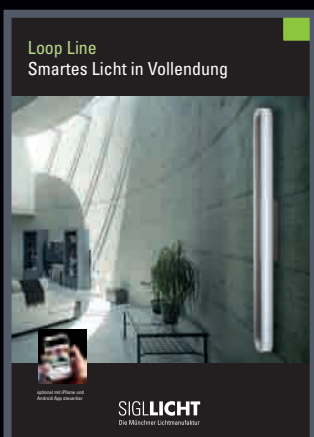

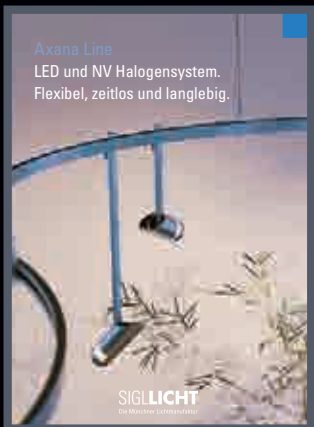

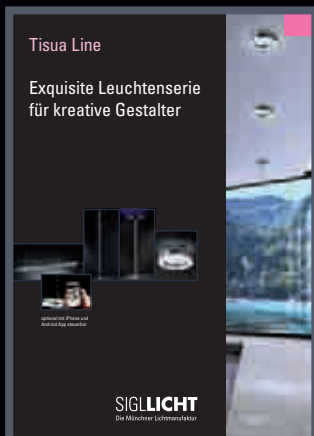

” Light fascinates me since my youth. For me, a good lighting design only makes sense, although the light that gives the light to the person and the room is perfect. I am therefore particularly pleased that the Jamaton Collection has succeeded in creating a symbiosis between a timeless luminaire body and the perfect light. “

Individually for you

In addition to our existing range of luminaires, we can also offer you special concepts and extensions - according to your individual lighting wishes and ideas. Just contact us!

We are happy to advise you personally.
