LOOP INSPIRED PURISM

Puristic design does not have to be cool!

The sum of all furnishings makes the charm in addition, reflects the character of the owner again. The timeless luminaire design of Loop integrates the luminaire series in a wide variety of furnishing styles, but especially where the perfect light is desired. The lamp Loop is available as pendulum, floor, and wall and ceiling lamp.

German Design Award 2017*

LOOP: EMOTION FOR EVERY ROOM

LOOP IS SPECIAL

OPTICALLY AS WELL AS TECHNICALLY

LOOP DEFINES WHITE COMPLETELY NEW

Whether subtly white bright or cool blue shining, in Loop white has many colors. Everyone has different preferences for the LED light and that's why Loop has developed a series of luminaires that allow you to mix all the nuances of the white tone - e. G. a cool white for concentration during the day and a warm white for hours of relaxation. In addition, you can create special moods with countless colors. Alternatively, you decide on our new loop model, deliberately with just one white tone.

A SINGLE LUMINOUS BODY TWO DIFFERENT LED TECHNIQUES

The loop with colored Ambience light:

Full features for multi-faceted white light and unlimited color play.

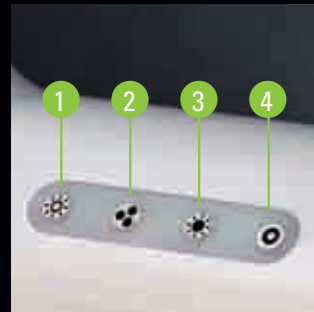

Dimmable up and down, color-changeable at will and good for a new light mood every day: The loop with color LEDs and optional light control via the LightModul or our specially developed app quite conveniently via smartphone or tablet. Therefore, you turn your rooms into a world full of emotions and atmosphere.

Optionally controllable with iPhone And Android app

Choose the perfect light With the LightModul

- 1 Dim brightness infinitely
 - 2 Select desired white tone
 - 3 Colour Dim brightness infinitely
 - 4 Function key
- (Choice: Operation above, Below, together)

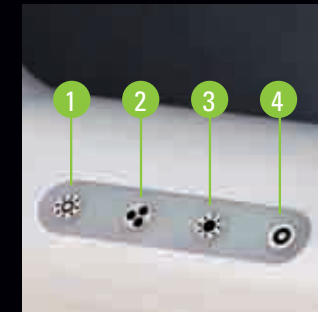

Side choice: The light can be regulated up and down separately in brightness and color.

The Loop White Light:

With doubly dimmable light: the entry into the fascinating loop world.

Warm white, upwards and downwards dimmable LED light and intuitive operation by our proven LightModul: With our „entry-level loop“, you can immerse your rooms or your table in good order the light that best suits your mood. A fascinating designer lamp for a very attractive price.

Dimming the white light with the LightModul

- 1 Dim total brightness
- 2 Dim upper brightness
- 3 Dim lower brightness
- 4 Power off switch

Side choice: The light can be regulated separately in the top and bottom or right and left in the brightness.

LOOP WITH COLORFUL AMBIENT LIGHT

FORWARD-LOOKING LIGHT TECHNOLOGY..

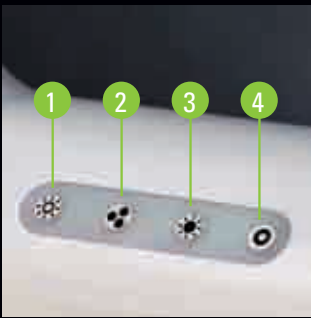

Light control through the LightModul...

... or optionally controllable with the Bluetooth chip

..MOREOVER LIGHT PLAY

Optionally controllable with iPhone and Android app

Choosing the perfect light with the LightModul

- 1 Dim brightness infinitely
- 2 Select desired white tone
- 3 Colour Dim brightness infinitely
- 4 Function key
(Selection: Operation above, Below, together)

Side choice The light can be regulated up and down separately in brightness and color.

The LightModul All luminaires are equipped with the LightModul. The lights with colored ambience light are also available with a Bluetooth chip for operation via iPhone or Android phones.

Call light scenes

Set light scenes

LIGHT:POETRY

LOOP P

Simply poetic.

The pendant lamp from the Loop series impresses with its clear, unmistakable body made of extruded aluminum, and the soft light band that dips rooms into a charming white light, depending on the model, or can take on any desired color when required. Their light is pleasantly soft and glare-free radiated into the room and caresses the soul. Simply put. The whole poetry of good light.

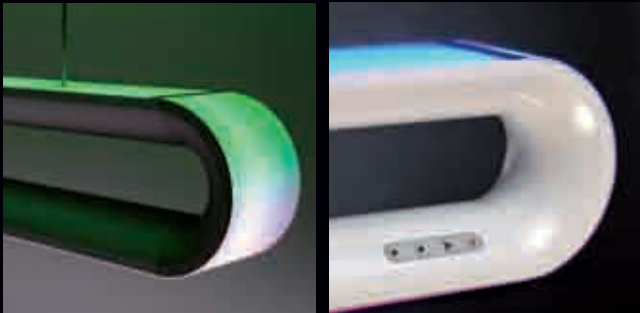

LOOP P

For the right table staging

The LightModul
All luminaires are equipped with the LightModul. The lights with colored ambience light are also available with a Bluetooth chip for operation via iPhone or Android phones.

Side choice:
The light can be regulated up and down separately in brightness and color. In the models with colored ambience light, the light color can also be regulated.

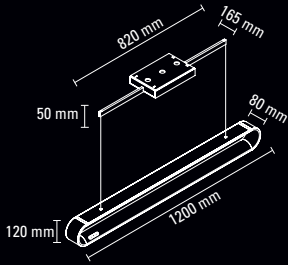

Delivery contents

Each luminaire is supplied ready for connection with control gear (integrated for 110 V- 230 V) and 2 m cable, so that it can be positioned for rooms up to 3 m on the ideal table lamps - height of 1.5 m above the floor.

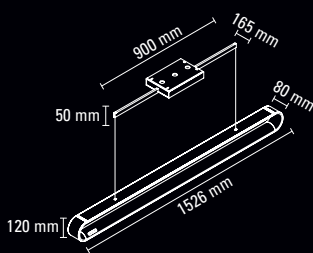

On request, we manufacture the luminaire in individual lengths up to 3 m, for e.g. Meeting tables of up to 5 m..

Loop P 1200

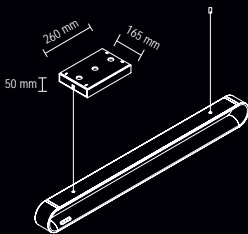

Perfect for a table length from 1,5m up to 2,0 Meter

Loop P 1500

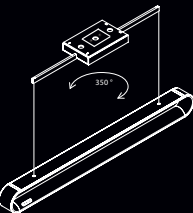

Perfect for a table length from 2,0m up to 3 Meter

Special Application

If you're light, outlet is not centered or disturbing a beam, we also deliver the light one-sidedly. (Extra charge 119, - Euro)

Swiveling

If your table position changes, we also deliver the lamp rotatable around the central axis. (Extra charge 476, - Euro)

FOR MORE CREATIVITY IN THE KITCHEN

Because good light is like an important ingredient.

Cooking together, enjoying together - that will be a real experience for all the senses, if the atmosphere is right. In addition, if you do not lose sight of everything that actually belongs in the pot. The Loop P takes care of both - and quickly becomes the second star in the kitchen. Dinner is served.

LOOP P

Pure, expressive, stylish - warm white.

LIGHT:SCULPTURE

LOOP LINE

LOOP S

The talented floor lamp.

An eye-catcher in every room. When switched on, it captivates with its lighting design and off, captivating with its unique design. The individually adjustable white tones immerse your room in a soothing bright light. In the evening, the Loop S creates a unique atmosphere with different shades. Light for all senses.

Loop S:
*Awarded the Special Mention
of the German Design Award 2017*

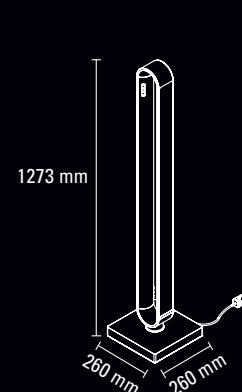

LOOP S

Turn the room into a stage..

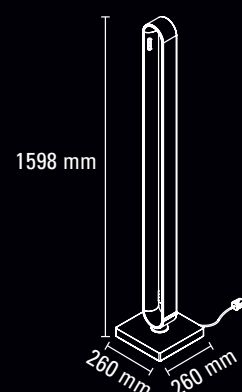

Put something in the right light - this saying is no accident. Spaces, scenes and moods vary greatly in their effect due to different lighting. With the Loop S you become the mood director and make your room exactly the place you want. In addition, if you leave the Loop S off, it looks creative in its Puristic, slim form. Clear the stage for good light.

It is available as standard in two sizes
In addition, four color versions.

LOOP S 1200

LOOP S 1500

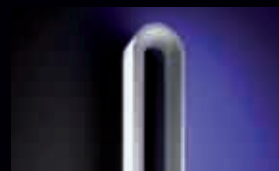

Delivery contents

Each luminaire is supplied ready for connection with control gear (integrated for 110 V- 230 V)

LOOP D

(Actually) for the ceiling

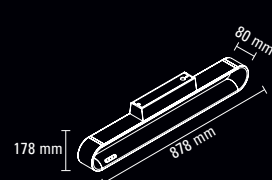

Acts magically on every surface.

When you design your rooms, you need a high degree of freedom. Of course, the Loop D can be mounted as an eye catcher on the ceiling. This creates special lighting effects that you can consciously influence by dimming. If you decide to make the ceiling look like a homogeneous surface, simply mount your Loop D on the wall and illuminate the ceiling indirectly. That creates a special, harmonious sense of space. We call it the slightly more elegant way of ceiling lighting. The ceiling light with more potential.

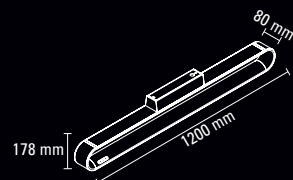

It is available as standard in three sizes
Moreover, four color versions.

Thursday: 9am – 8pm
Saturday 10am – 4pm
(From October to the end of April)

Klaus Sigl
Owner and managing Director
SigLicht GmbH

” Light fascinates me since my youth. For me, a good lighting design only makes sense, although the light that gives the light to the person and the room is perfect. I am therefore particularly pleased that the Loop Collection has succeeded in creating a symbiosis between a timeless luminaire body and the perfect light.

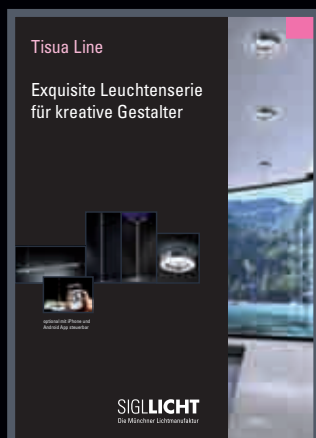

“

Individually for you

In addition to our existing range of luminaires, we can also offer you special concepts and extensions - according to your individual lighting wishes and ideas. Just contact us!
We are happy to advise you personally.
