Puristic

LIGHT:DESIGN

Reduction for maximum effect

The purist design in combination with the special LED light in the light rings makes our lights from the Tisua Line to timeless

Style icons that enhance every style of decor and every room. Convince yourself of the design that has no equal!

LED light: efficient and with high color rendering index

Sustainable LED technology has been perfected for the Tisua Line luminaires. With 6/7 less energy consumption than conventional bulbs, the LED lights are also particularly economical and sustainable. To ensure that you have beautiful room light, we only use LEDs with a high color rendering index > 90.

Light is just a matter of attitude

The light rings are individually movable in most lights, so that the lighting can always be individually aligned.

Milled from one piece for high quality

The high-quality lights are manufactured in our Munich factory, made of solid aluminum, milled from the whole and meet the highest quality standards.

Refined with the finishing touch

The aluminum surface of the Tisua Line luminaires is finished with a satin finish and diamond surface finishing. On request also available in other surfaces.

For a quarter of a century and beyond

The high-speed LEDs are thermally conductive glued to the light ring, and have an expected life of 25,000 hours, for 25 years of light in the private sector. Afterwards, we can change the LEDs on request, one of the advantages of the Munich light manufacturer Sigllicht. Of course, all our Tisua Line Lights have a 5-year warranty.

Light:AURA Page 10-31

Light with benefit through the integrated LightModul

With the integrated LightModul you can adjust brightness and light color directly at the luminaire. Choose between two light color variants. Variable white light and colored ambience light:

The concept of light: Aura lights

Moods change, and so do the demands on the light of a room or a room zone. The light changes our well-being. With the Tisua Line luminaire series, we want to give you the opportunity to create exactly the light atmosphere that you need right now. Bright beautiful white for the dull days, colored ambient light for the special hours.

Light changes the room experience. The light changes the impression and the atmosphere of a room like no other element. With the Tisua Line light series, you have the opportunity to indirectly illuminate your room. This will open it up and make it bright and friendly or you will illuminate with the direct light portion only the zone you need, bright for reading or muted for the leisurely hours.

You get all the light: Aura lights of the Tisua Line collection with colored ambient light or in variable white light.

Light control through the LightModul...

Colorful ambient light

So that the special light aura comes into its own, use the different colors of the colored ambient light to transform your room into ever-changing lighting moods! Brilliant white light is used for optimum down lighting. For the light up in the room you can perfectly stage your living climate with a unique variety of colors: Azure blue or ruby red or sun yellow or ... let yourself be surprised by the numerous possibilities!

Change the mood with the LightModul

- 1 Brightness for the brilliant white lighting (downwards) infinitely dimming
- 2 Select different shades of the desired Color for the room lighting (upwards)
- 3 Brightness of the desired color of the room light (upwards) infinitely dimming
- 4 Activation of the last saved light situation

Colorful ambient light
optionally controllable
with phone or tablet

Forward-looking

LIGHT:TECHNOLOGY

... or optionally controllable with a bluetooth chip

Variable white light

You can set the lighting accordingly so that you have the best possible light depending on your needs or the time of day: warm white light - similar to the light of an incandescent lamp - for a cozy and cozy lighting atmosphere (e.g. for the evening) or brilliant white light - similar to the light of a halogen lamp - for invigorating, factual lighting (e.g. for the morning). You can dim the direct light (down) and the room light (up) independently of each other.

Choosing the perfect light with the LightModul

- 1 Brightness for the brilliant white lighting (downwards) infinitely dimming
- 2 Select the desired white light shade (warm white or brilliant white) of the lighting
- 3 Brightness of the desired color of the room light (upwards) infinitely dimming
- 4 Press function key white tones 1 x set white tone down, press 2 x set white tone up; double-click joint operation below and above.

Change the white tone
With the LightModul.

LIGHT:AURA

DOLORINUA DOLORIMUA

Puristic LIGHT:DESIGN

Gives rooms a soul.

Light is an effective medium to create a harmonious mood. The space can be seen as a body. Light is breathed into the anatomy of the room and a light forms the heartbeat. You do not perceive it every second, but it is always there and controls the well-being.

With DOLORIMUA and DOLORINUA, discover lights that fill every room with life through their special Light: Aura.

DOLORINUA

DOLORINUA: Winner of the Bavarian State Award for special design and technical achievements in craftsmanship 2013

Perfect for a table length up to 1.5 meters

Perfect for a table length up to 2.0 meters

Perfect for a table length of 2.0 meters or more, suitable for tables up to 3.0 meters

DOLORIMUA

Choose exceptional. With DOLORINUA and DOLORIMUA.

A series of luminaires in which function and design merge. Discover the perfect luminaires for your individual lighting concept with the DOLORINUA and DOLORIMUA series. Whether DOLORINUA with closed metal panel or DOLORIMUA with semi-closed metal panel, you can always be sure to enjoy a very special lighting concept

The right one for every table and every possibility of fixing.

The lights are available in three different lengths and can easily be adjusted in height without cutting the cables. The ceiling mount is suitable for both straight and sloping ceilings and can be supplied without crossbar on request should a beam or other be in the way. An attachment without the ceiling mount is also possible if the power supply can be accommodated externally. Please contact us if you require an individual installation solution.

The game of lamp heads

The light rings are individually movable upwards so that the lighting can always be individually aligned.

The LightModul

The lights with colored ambience light are also available with a Bluetooth chip for operation via iPhone or Android phones.

DOLORINUA

With the closed metal panel at the light rings provides a directional light, which allows optimal, targeted lighting on the table and up.

DOLORIMUA

The light rings with a half-closed metal aperture also emit light from the sides, which broadens the light.

Delivery contents

Each luminaire is supplied ready for connection with control gear (integrated for 110V-230V) and 2m cable, so you can be positioned for rooms up to 3m to the ideal table lamp height of 1.5m above the floor.

On request also in black or white version and with longer cable available.

Special application

If your light outlet is not centered or disturbing a beam, we also deliver the light one-sidedly. (Extra charge 119,- Euro)

Swiveling

If your table position changes, we also deliver the lamp rotatable around the central axis. (Extra charge 476,- Euro)

LICHT:WEISS

LED LIGHT AS BEAUTIFUL AS HALOGEN LIGHT

White light makes rooms
Bright and experience able.

White light is the most natural light
That the human eye knows. It is especially nice
when it has the same light radiation as the sun-
light or the halogen incandescent light. The LEDs
we use have not only a high light output and a
long life but also a very high quality of light to
offer, so you feel good every day.

Delivery contents

Each luminaire is supplied ready for connection with control gear (integrated
for 110 V-230 V)

Also available as special versions with external operating equipment on
request for commercial property. Surfaces available in black or white on
request.

Thursday: 9am – 8pm
Saturday 10am – 4pm
(From October to the end of April)

Klaus Sigl
Owner and managing Director
SigLicht GmbH

” Light fascinates me since my youth. For me, a good lighting design only makes sense, although the light that gives the light to the person and the room is perfect. I am therefore particularly pleased that the Tisua Collection has succeeded in creating a symbiosis between a timeless luminaire body and the perfect light. “

Individually for you

In addition to our existing range of luminaires, we can also offer you special concepts and extensions - according to your individual lighting wishes and ideas. Just contact us! We are happy to advise you personally.
